DETAILED ACTION

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 41 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

On page 3 of the Preliminary Amendment Claim 41 is listed as an original claim. However the line below it states that claims 41-64 are canceled. Please clarify the status of claim 41.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 39-41 and 65 are rejected under 35 U.S.C. 102(b) as being anticipated by Rydell et al. (US 5445638). Rydell et al. disclose an apparatus for bonding soft biological tissue comprising forceps (18), electrodes (60 & 68) secured to the forceps, an electrical power source and the electrodes are dimensioned relative to the size of the tissue portion to be an effective heat sink.
